Percentile Scores

Not only do you have an overall score, but we also provide scores that measure two levels of alignment. They are Business and People. This will help you to quickly identify your areas of excellence and your opportunities to improve. These questions are further broken down into themes. The scores are reported as percentiles comparing you to other organisations in our database. A score of 90, for example, would indicate you scored higher in this theme than 90% of organisations.

Priorities for improvement

We also sought feedback on improvement priorities across five common areas; communications, management, productivity, performance and waste. Employees were encouraged to make four selections from the lists below. Their top selection was assigned four points, the next three points, and so forth

In my section, the main cause of waste (money, materials, time, human effort) is:

Rank	Aust Avg	2014 Rank	Item	2015 Score
1	11	3	POOR PERFORMANCE BY SUPPLIERS/ SUBCONTRACTORS: We need to manage them more effectively, they could make our life a lot easier	94
2	4	4	TOO MUCH PAPERWORK: Unnecessary reports and form filling, duplication, paper wars, paper trails, printing everything, destroying trees	67
3	1	2	HUMAN EFFORT/REWORK: Doing jobs twice, double handling, carelessness, human error, fixing other people's mistakes	67
4	3	5	TIME WASTING/TIME DELAYS: Not managing time effectively, unproductive meetings, waiting for decisions, slow follow-up, chasing information	59
5	2	1	THERE IS NONE: It's not apparent to me, we're doing fine, there's not much waste here	52
6	7	7	POOR PLANNING/DISORGANISATION: Lack of direction, unclear instructions, incomplete briefs, inadequate paperwork, changing direction midstream	40
7	8	11	NOT ENOUGH PEOPLE TO DO THE WORK: Need more staff, too many managers and not enough employees, we're stretched to the limit	39
8	5	8	POOR RESOURCES: Can't do the job professionally, need better technology/ equipment/materials/maintenance, too much downtime.	31
9	6	6	UNPRODUCTIVE PEOPLE: Laziness, people with bad attitudes, poor effort, apathy, misuse of work time	26
10	9	9	TOO MUCH RED TAPE/BUREAUCRACY: Too much regulation, accounting for things instead of doing things, form filling	21
11	10	10	LACK OF TEAMWORK/TOO MUCH INFIGHTING: Conflict, bitching, lack of motivation, lack of co-operation between workgroups	18
12	14	13	WASTE OF MONEY: Lots of dollars are wasted, materials are not used, we spend money on unnecessary things	9
13	12	12	NO LEADERSHIP/POOR MANAGEMENT: Ineffective supervisors/managers, management not in touch, management indecision	9
14	13	14	CONSTANT RESTRUCTURING: Outside interference, constant reorganisations, too many reviews/inquiries, waste of resources	8

Key Findings

We have carefully looked at all of the survey results. We believe there are a number of key issues which we will now identify.

If we can make significant progress in these areas you would expect to see a more positive working environment, better attitudes, higher productivity and improved performance:

- **Better workload management and work/life balance**
- **A pay review at the appropriate time**
- **Improve communications**

Where to from here?

This report should be released for discussion and comment. Managers have a key responsibility to follow through on these issues, because “good managers look after people, people look after the business”.

Your score of 76% is above the Australian Average. This survey has identified the key changes needed to continuously improve.

Congratulations on doing the survey. It’s a very healthy exercise to listen to the silent majority through a confidential process. Perhaps we should do it again in 12 months to check your progress.
